From the **PRESIDENT**

Troy A. Shoemaker, Ed.D.

Dear Educator,

Abeka was started in 1972 by Christian educators who saw a need. They could not find Christian textbooks that combined strong academics with a biblical worldview. What started as a few elementary readers has grown into a complete line of curriculum and resources for Pre-K through 12th grade. We praise the Lord for the privilege to serve Christian educators around the world.

Fifty years later, there has never been a greater need for Christian curriculum for your school. Students need the confidence that there is a God that loves them and has an amazing purpose for their life. They need a sound education with critical thinking skills to apply knowledge and creatively solve problems. Students need a biblical worldview to influence a world around them that is increasingly without hope and without answers. Christian schools focused on evangelizing, educating, and discipling young people can still have the greatest influence on the next generation of citizens and leaders.

Thank you for allowing us to be your partner in Christian education. We are excited about the future and look forward to hearing about how God is using your school to impact the world for Christ.

Arithmetic 4

Abeka's refreshed arithmetic materials provide more opportunities for students to develop their critical thinking and application skills. Well-paced instruction takes students from the known to the unknown as they study multiplication and division, simple geometry, fractions, and more. Consistent spiral review keeps content fresh as students expand their knowledge.

Science 4

Students will discover the Creator's detailed design as they study biology, geology, meteorology, astronomy, ecology, botany, and more. Using the scientific method, students will discover how science applies to their everyday lives through sixty-nine different activities in the *Understanding God's World STEM Activities Book*.

History 4 (Available August 2022)

Watch the history of the United States unfold from early colonization to the present day. A thorough geography study explores the five U.S. regions, and feature boxes on government and economics introduce these concepts on a fourth-grade level. Updated teacher resources provide additional critical thinking questions and discussion topics.

Health 4 (Available January 2023)

Practical instruction and engaging activities empower students to take responsibility for their health. As students explore the nervous, digestive, immune, circulatory, and skeletal systems, they will discover the proper nutrition and fitness practices to care for these systems. Students will also learn how to continue developing a right relationship with God and others.

Reading 6

Exciting adventures are in store for your 6th graders! Abeka's updated Reading 6 resources will

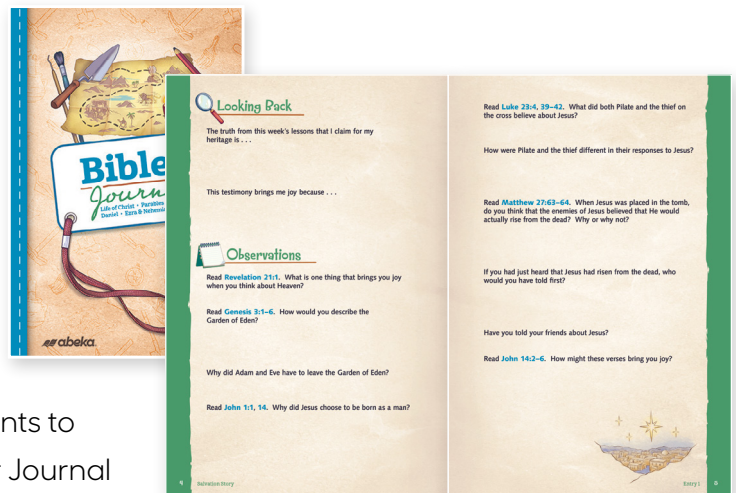

- capture your students' attention with a variety of interesting topics.
- strengthen their critical thinking and comprehension skills.
- improve their literary analysis and evaluation skills.
- develop their biblical worldview.

Time-tested classics and exciting new selections will equip students with the tools they need to effectively analyze literature. Students will put these tools to use as they complete the new critical thinking and enrichment activities in the back of each student book. Additional discussion topics and critical thinking questions in the expanded curriculum will enrich each lesson.

Bible 6 Journal

With this unique Bible journal, your students-turned-archaeologists will dig deep into Scripture to uncover hidden treasures. This journal takes the students beyond the *who* and *what* of Scripture to the *why* and *how* of Christian living. Journal entries contain Daily Living sections that encourage students to apply biblical precepts to their lives. Prayer Journal entries encourage students to spend time with God and record answers to prayer. Correlated with Grade 6 Bible Curriculum, this journal helps students develop a biblical worldview as they cultivate a daily walk with God.

8th Grade History

America: Land I Love presents a chronological account of American history with a factual emphasis on the people and events that shaped the United States. Incorporated throughout are thought-

provoking questions to develop critical thinking skills and a biblical worldview regarding the significance of individuals and events in the nation's history. The *Civics Activity Book* encourages students to learn more about their state and local governments through a variety of activities and worksheets. The *Geography Studies and Projects of the Western Hemisphere* workbook provides pages of facts and map activities for a focused study of geography in the Western Hemisphere. This course highlights America's heritage of faith and her patriotic pursuit of freedom as foundational values in the history of the United States of America.

MISS LIBERTY
In October 28, 1886, more than a million people gathered at New York Harbor to dedicate the nation's newest monument, the **Statue of Liberty** while President Grover Cleveland gave a speech of dedication. To the countless immigrants who have come to the United States since 1886, "Miss Liberty" has symbolized a land of freedom and opportunity. This 125-foot tall copper statue designed and constructed by French sculptor Frédéric Auguste Bartholdi was presented as a gift to the American people from the people of France. In one hand, she holds a torch representing Liberty; in the other, she holds a tablet bearing the date of the Declaration of Independence. Her pedestal, built by contributions from schoolchildren across America, bears the inscription of a poem by Emma Lazarus entitled "The New Colossus." These lines capture the far-reaching message of the statue:
"Give my tired, my poor;
Your huddled masses yearning to breathe free,
The wretched refuse of your teeming shore,
Send these, the homeless, tempest-tost to me,
I'll lift my lamp beside the golden door!"

10th Grade Biology

Biology: God's Living Creation introduces students to botany, zoology, microbiology, physiology, cytology, and genetics. Foundational concepts are arranged in a logical daily lesson sequence, and clear explanations are framed

within a biblical worldview. Exercises throughout provide students with opportunities to refine critical thinking skills. In addition, the comprehensive *Biology Field and Laboratory Manual* will provide students with the "hands-on" components of lab safety, microscopy, and dissection. Along with academic knowledge, students will gain a greater appreciation for God's physical creation and an increased interest in science.

12th Grade Bible

The book of Genesis provides a solid foundation for the development of a biblical worldview. This course takes an expository, in-depth look at the events and the effects of Creation, the Fall of man, the Flood of Noah's day, and the

Tower of Babel. With a focus on origins, worldview, and an introduction to apologetics, students will understand what they believe, why they believe it, how they can apply their beliefs in daily living, and how they can share biblical truths with others. The study is enhanced with Dig Deeper sections to allow for further study of related topics and My Worldview prompts to articulate personal application.

Spanish 2

Building upon the foundational principles taught in Spanish 1, this new second-year Spanish course continues to engage students in a practical approach to learning the language. Exercises and activities focus on expanding

the students' vocabulary and teaching grammar concepts that will enhance the students' ability to communicate in various real-world situations. Writing labs and oral presentations are designed to increase confidence in written and oral fluency. The corresponding *Literacy Comprehension Exercises* book provides practice through selections highlighting Spanish-speaking countries around the world, along with additional reading comprehension activities, songs, and poems. Through exercises, reviews, and a variety of applications, students will develop the practical tools they need to increase their fluency in the Spanish language.

4 Ongoing Development

Editorial and research teams assist writers through ongoing development to corroborate, review, and polish content and technical changes for readability, style, and form.

5 Initial Printing

Layout and design finalized and approved for initial printing and piloting.

6 Pilot

Textbooks and materials are piloted at Pensacola Christian Academy. Continuous feedback from active teaching professionals is provided along the way.

7 Revision

Editorial team makes necessary revisions to ensure maximum readability, academic rigor, assessment validity, and student appeal.

8 Publication

Final editorial approval and release for publication.

Timely. Thorough. Trustworthy.

Reliable studies for traditional best practices—validated by the consistent success of millions of students over decades—form the basis of Abeka textbooks, curriculums, and other materials. When you teach with Abeka, your teaching is based on biblical principles that address the nature of the learner and learning itself, the nature of truth and authority, and what is truly important to learn and remember.

Subject Distinctives

Bible

The foundation for all learning

The Abeka Bible program presents the Bible in the narrative style in which it is written. Students are led through the stories and truths of the Old and New Testaments, including Bible doctrine and application at an age-appropriate level. **It is our goal to help you reach children of all ages with the Gospel and to equip you as you guide them in developing a biblical worldview.**

Reading

The means by which each person may learn for himself

Because children often emulate what they read, they benefit from the development of reading skills through character-building reading materials from an early age. Abeka employs phonics as the most logical, orderly way to introduce reading to children. Abeka readers are beautifully illustrated and imaginatively written.

Selections are carefully chosen for interest, readability, theme, and values, with literary concepts and questions throughout to guide students in comprehension of reading material and in development of critical thinking skills, including life application of valuable principles.

History

A realistic view of time, government, geography, and economics based on eternal truths

Abeka's history courses present an inspiring portrayal of peoples, lands, ideals, heroes, triumphs, and setbacks in light of the biblical principles that govern the natural course of history. Students benefit from this traditional, conservative approach to the study of what man has done with the time God has given to him.

Along with the story of history, students see the purpose of government as ordained by God for the maintenance of law and order, not as a cure-all for humanity's problems.

The benefits of free-enterprise economics are presented in contrast with the dangers of Communism, socialism, and liberalism. Geography studies are woven in to provide a well-rounded perspective of locations in conjunction with events. **This approach results in edifying history texts that give students a historical perspective and instills within them a gratitude for God's hand in history and a desire to influence the future by fulfilling the Great Commission (Matt. 28:19-20).**

Mathematics

The study of logic and order to apply to science and daily life

Abeka teaches that the laws of mathematics are a creation of God and thus absolute. Man's task is to search out and make use of the laws of the universe, both scientific and mathematical. This is in significant contrast to the modern math theories that are based on mathematics as a creation of man and are thus arbitrary and relative.

Students enjoy Abeka's variety in covering multiple branches of mathematics—arithmetic, geometry, algebra, etc.—each year on an age-appropriate level. At the same time, they benefit from the spiral approach of revisiting and building upon the learning throughout each year and from one year to the next. The learning is both relevant for today and foundational for the future, with each course purposefully preparing students for the next. **This solid foundation of mathematical concepts and problem-solving skills, enhanced with a biblical worldview, intentionally and naturally results in lifelong application.**

Science/Health

The investigation of variety, order, and reasonableness revealed in creation

The Abeka science and health program presents the universe as the direct, orderly, law-abiding creation of God and refutes the man-made idea of evolution. Students are presented with plants, animals, rocks, elements, forces, the human body—and much more—according to an understanding of the design and laws of nature.

Learning is delivered through age-appropriate content in a variety of scientific fields, including life science, chemistry, and physics. This content is supported by full-color illustrations to enhance learning, oral and written activities to reinforce learning, and hands-on demonstrations to personalize learning. **Students are equipped to explore science from a biblical worldview while developing practical use of the scientific method and application of critical thinking skills.**

English

The study of language and communication in a structured, reasonable, and well-articulated manner

Because thought and language form the foundation of learning and communication, teaching grammar, spelling, vocabulary, composition, and literature is vitally important. Abeka presents language in a structure in which students develop orderliness, reasoning, and logic.

Students will benefit from Abeka's commitment to an emphasis on reliable grammatical and literary structure that prepares them for analysis and practice. The desirable result is mastery with the development of critical thinking. Because of this emphasis, students see the importance of correct spelling and the continual expansion of one's vocabulary. **Students are provided with examples of the very best literature of the ages, opportunities for the continual improvement of speaking and writing ability based on a strong grammatical foundation, and the development of individual discernment based on a biblical worldview.**

A woman with long blonde hair, wearing a blue and white striped V-neck top, and a man in a dark suit and striped tie are looking at an open Abeka book. The book is titled "Arithmetic 4" and features a colorful illustration of a person. The background is a purple wall with the Abeka logo and colorful geometric shapes.

Recognizing Complex Sentences

1. A complex sentence contains one independent clause and one or more dependent (subordinate) clauses.
[If sinners entice them, consent thou not. —Proverbs 1:10 (one independent clause and one dependent clause = complex sentence [D + I = Cx])
[If you wish to be held in esteem, you must associate only with those who are estimable. —Bryant (one independent clause and two dependent clauses = complex sentence [D + I + D = Cx])
2. In some complex sentences containing a noun clause, the dependent clause is not obvious because the noun clause is part of the independent clause.
Sheila will do what her parents ask. (What her parents ask is the dependent clause acting as the direct object of the independent clause.)
3. Dependent clauses always have introductory words (sometimes understood) that join them to an independent clause. Noun clauses are joined by signal words (p. 130); adjectives clauses are joined by relatives (p. 193); and adverb clauses are joined by subordinating conjunctions (p. 223).

Exercise All of the following sentences are complex sentences. (1) Underline each subject once. (2) Put brackets around each dependent clause.

1. If you want your grade to improve, you must choose to study more.
2. We were late leaving because the car would not start.
3. Whoever wants to go must register before tomorrow. *Note: The entire noun clause is functioning as the subject of the independent clause.*
4. The car that we drove was blue.
5. Jim, who is Karen's brother, drove us to youth meeting last Friday.
6. Kimberly, please give the handouts to whoever does not have one already.
7. Once upon a time, there were three little pigs who were going out into the world to make their fortunes.
8. Because Jill reads many books, she visits the library every week.
9. The three boys that are known as the Thompson Trio will be singing in our church on Sunday.
10. The teacher wants whoever is finished to raise his hand.

A Tale of Two Frogs

Main character and setting: Two frogs sat on a log. The water of the bog slowly lapped against the log. The mosquitoes buzzed, and the dragonflies flitted around.

The bigger frog closed his eyes. "What a wonderful day!" he said to the other frog without opening his eyes. "I could sit here forever."

"It is nice," said the little frog, "but we can't forget what Mama Frog told us when we were leaving this morning."

"She told us to have fun and enjoy the bog," said the big frog without opening his eyes.

"Yes, she did," agreed the little frog, "but she also told us to be alert and watchful because we never know when danger might come."

"What dangers could be in this beautiful place?"

"This is a great place, but we are not the only ones here," said the little frog. "There are still plenty of dangers. The alligators, turtles, and big birds would all like to put frog legs on their menus."

"What? The alligators are sleeping. The turtles are sleeping. The birds are sleeping. I think it is time for us to sleep too. It's okay out here. You're okay. I'm okay. Don't worry!" And the big frog comfortably settled himself more comfortably on the log and started snoring lightly.

Across the bog, one of the alligators was not sleeping at all. He was too hungry to sleep. He had been listening to the frog's conversation. Quietly, he slipped into the water. Although there was hardly a ripple, the little frog, who was watchful, saw the alligator.

"Big frog! Big frog! Wake up! There is an alligator coming this way."

Introduction

adapted from
**EVANGELINE:
A TALE OF ACADIE**
HENRY WADSWORTH LONGFELLOW

In order to fully appreciate this abridged version of *Evangelina*, Longfellow's narrative poem about an Acadian maiden's search for her true love, it is necessary to understand the work's historical background. The Acadians were French settlers who refused to take an oath of allegiance to the Crown of England after Britain gained control of Acadia (Nova Scotia) in 1713. In 1755, after renewed efforts during the French and Indian War to force the Acadians to comply, the British began removing them from the area. Between 1755 and 1762, thousands were sent as prisoners of war to Britain's American colonies. When the French and Indian War ended and the Treaty of Paris was signed in 1763, the Acadians in the British colonies were forced to leave. Some returned to Nova Scotia; some settled in various French-owned territories. Still others settled in Louisiana, where their descendants are known as Cajuns. From this historical background, Longfellow tells the love story of *Evangelina* and Gabriel.

Bearded with moss, and in garments green, indistinct in the twilight,
Stand like Druids² of old, with voices sad and prophetic,

Mark Twain (1834–1910), the pen name of Samuel Langhorne Clemens, was a
humorist, newspaperman, and lecturer whose stories of boyhood adventures
brought him worldwide fame. Having been raised along the banks of the Mississippi
River, he spent the first part of his life working from one odd job to the next and
writing articles for local newspapers. Twain worked as a riverboat pilot on the
Mississippi River for several years before turning to writing for various papers. His stories,
which combine excellent and humorous descriptions of people, became popular, and his
name spread throughout the country.

THE NIGHT THE BED FELL
from *MY LIFE AND HARD TIMES* . . . JAMES THURBER

When your mother is convinced the heavy bed in the attic will fall on your sleeping father
and your cousin has a deep-seated fear of suffocating in his sleep, you know your family does
not lack in imaginative phobias. But even with their lively imaginations, no one in the family
could have foreseen the dramatic events caused by the simple upset of an army cat.

suppose that the high-water mark¹ of my
youth in Columbus, Ohio, was the night the
bed fell on my father. It makes a better recitation
(unless, as some friends of mine have said, one has
heard it five or six times) than it does a piece of
writing, for it is almost necessary to throw furniture
around, shake doors, and bark like a dog, to lend
the proper atmosphere and verisimilitude² to what
is admittedly a somewhat incredible tale. Still, it
did take place.

It happened, then, that my father had decided
to sleep in the attic one night, to be away where
he could think. My mother opposed the notion
strongly because, she said, the old wooden bed
up there was unsafe; it was wobbly and the heavy
headboard would crash down on father's head
in case the bed fell, and kill him. There was no

dissuading him, however, and at a quarter past
ten he closed the attic door behind him and
went up the narrow twisting stairs. We later
heard ominous³ creakings as he crawled into bed.
Grandfather, who usually slept in the attic bed
when he was with us, had disappeared some days
before. (On these occasions he was usually gone
six or eight days and returned growling and out
of temper, with the news that the Federal Union was
run by a panel of blockheads and that the Army
of the Potomac⁴ didn't have any more chance
than a trout in a skillet.)

This anthology traces the development of English literature from the Anglo-Saxon period through the twentieth century and features such major literary figures as Chaucer, Malory, Foxe, Spenser, Marlowe, Donne, Shakespeare, Milton, Tennyson, Dickens, and Shaw. The background material included with many selections helps students understand the context and the content of the work and

evaluate it in Christian perspective. Selections from Defoe's *Robinson Crusoe* are presented, including the often-omitted record of Crusoe's spiritual growth and his Christian witness to Friday. Key chapters from Boswell's *Life of Samuel Johnson* highlight Johnson's belief in the Bible and the vastness of his mind. Hymn writers and the great devotional writers and preachers are also included. The text concludes with tributes to those who rose above the barrenness of 20th-century thought to continue England's tradition of Christian faith and vision.

MATHEMATICS | Student

Teach mathematics with confidence using logically arranged texts that emphasize problem solving. Your students will build a solid foundation on simpler concepts that prepare them for the complex concepts they'll learn as they progress through each text. With the Grade 7-12 math series, you will instill in your students a sound, practical knowledge of mathematics that they'll be able to apply throughout their lives.

Intermediate Mathematics and Pre-Algebra

Each text moves step-by-step from basic concepts to the more difficult. Practical word problems throughout the text show students the benefits of learning math. Each lesson is followed by an assignment, which provides homework to review that day's lesson and material from previous lessons. The material is divided into teachable daily lessons. The bright, open appearance and clear, readable type encourage student interest.

8.1 Introduction to Probability

Flipping a coin has a long history of being used to randomly select between possibilities and to settle disputes. Although it is typically thought of today as "heads or tails," the ancient Romans, who were among the first to flip coins, called it "slip or head" as their coins had a ship on one side and the emperor's head on the other.

The probability of an event occurring is the event's likelihood. When a fair coin is flipped, each side has the same chance of landing up—both heads and tails have a probability of $\frac{1}{2}$. In this scenario, heads and tails represent the two outcomes or results of the coin toss. When outcomes are equally likely to occur, the formula for the probability of a single event may be used. To find the probability of a single event:

$$P(\text{event}) = \frac{\text{number of outcomes satisfying event}}{\text{total number of possible outcomes}}$$

Probability of a Single Event

In probability, an event is a group of one or more outcomes. For example, when rolling a six-sided number cube, the event "rolling an even number" includes three outcomes: rolling a 2, 4, or 6. The notation $P(\text{event})$ is a shorthand way to say the probability of an event. The probability of rolling an even number could be represented as $P(\text{even})$. Using the formula for probability, $P(\text{even})$ would be $\frac{3}{6}$ since there are three outcomes that satisfy the event (2, 4, and 6) and six total outcomes in the sample space (the numbers 1 through 6).

In general, the probability of a single event can be found using the following steps:

Finding the Probability of a Single Event

- Determine the number of outcomes that satisfy the event.
- Determine the total number of outcomes in the sample space.
- Use the formula for probability to determine the probability of the event.

• Probability can be expressed as a fraction, decimal, or percent.

Example 8.1

Jerry has a bag of colored candy that contains 3 red, 1 orange, 4 yellow, 5 green, 2 blue, and 5 purple candies. Find the probability of randomly drawing a green candy from the bag. Express the probability as a reduced fraction, a decimal rounded to the hundredths place, and a whole percent.

Number of green candies = 5
Total = red + orange + yellow + green + blue + purple
= $3 + 1 + 4 + 5 + 2 + 5 = 20$
 $P(\text{green}) = \frac{\text{green}}{\text{total}} = \frac{5}{20}$
= $\frac{1}{4} = 0.25 = 25\%$

- Determine how many outcomes satisfy the event.
- Determine the total number of outcomes.
- Use the formula for probability.

• Write the probability as a reduced fraction, a decimal rounded to the hundredths place, and a whole percent.

Properties of Probability

After some candy was eaten, Jerry's bag now contains only 3 red, 5 green, and 2 blue candies. When the probabilities for randomly drawing each of the individual remaining colors are found, two important properties of probability can be seen.

$$P(\text{red}) = \frac{3}{10} = 0.3 \quad P(\text{green}) = \frac{5}{10} = 0.5 \quad P(\text{blue}) = \frac{2}{10} = 0.2$$

First, notice that every probability is between 0 and 1. Probabilities will always be between 0 and 1 (0% and 100%). Events that are impossible have a probability of 0. Because no yellow candies remain, the probability of drawing a yellow candy is now 0 or 0%. An event that is certain (must happen) has a probability of 1 (100%). Second, notice that the probability of drawing a red, green, or blue candy is now 1, since those are the only remaining colors. The sum of the probabilities of all outcomes in a sample space is 1 (100%).

$$P(\text{red or green or blue}) = \frac{3}{10} + \frac{5}{10} + \frac{2}{10} = \frac{10}{10} = 1 = 100\%$$

Properties of Probability

- The probability of any event will always be between 0 and 1.
- The sum of the probabilities of all outcomes in a sample space is 1.

The probabilities for...	Valid or Not Valid?
selecting each of the 3 possible students $P(\text{Alex}) = 120\%$, $P(\text{Bill}) = 30\%$, $P(\text{Carl}) = -50\%$.	The list of probabilities is not valid because 120% and -50% are not between 0% and 100%.
drawing each of 4 possible letters from the hat are $P(A) = \frac{2}{5}$, $P(B) = \frac{1}{5}$, $P(C) = \frac{2}{5}$, $P(D) = \frac{1}{5}$.	The list of probabilities is not valid because the sum is not $1: \frac{2}{5} + \frac{1}{5} + \frac{2}{5} + \frac{1}{5} = \frac{6}{5} \neq 1$.
selecting each of the 3 available car colors are $P(\text{red}) = 0.1$, $P(\text{white}) = 0.7$, $P(\text{black}) = 0.2$.	The list of probabilities is valid because all values are between 0 and 1 and the sum is 1.

Example 9.3c

Graph a line with a slope of 2 through (2, 2).

- Plot the given point (2, 2).
- Use the slope to plot the second point.
Start at the given point (2, 2).
 $m = 2 = \frac{2}{1}$ Move up 2 and right 1.
Plot the point.
- Draw the line through both points.

If the given point is close to the edge of your graph, you may need to change the direction of your slope. For example, if the line has the point (5, -4) and a slope of $-\frac{3}{4}$, writing the slope as $\frac{3}{4}$ will keep the line from going off the edge of the graph better than the equivalent form of the slope $-\frac{3}{4}$.

Fast Fact: Parallel and Perpendicular Lines

Recall that parallel lines never intersect. The same is true for two parallel lines graphed on the same Cartesian plane. Notice in the chart below that the parallel lines have the same slope. To identify two lines as parallel or intersecting, find the slope of each line and compare the slopes. If the lines have equal slopes, the lines are parallel, but if the slopes are different, the lines are intersecting.

Perpendicular lines are intersecting lines that form right angles. Perpendicular lines have slopes that are negative reciprocals of each other, meaning that the slope of the one line is the opposite sign and the reciprocal of the other line. For example, 3 and $-\frac{1}{3}$ are negative reciprocals of each other.

Type of Lines	Slopes	Comparison
Parallel	$m_1 = \frac{2}{3}$, $m_2 = \frac{2}{3}$	Same slope $m_1 = m_2$
Perpendicular	$m_1 = \frac{2}{3}$, $m_2 = -\frac{3}{2}$	m_1 is negative reciprocal of m_2

10.1 Additional Exponent Rules

The product rule and the quotient rule are not the only rules for exponents. The following three rules are also commonly seen when working with polynomials.

Power Raised to a Power

Sometimes, a power in parentheses is raised to another power, such as $(x^2)^3$. The x inside the parentheses is being squared and the entire expression x^2 is being cubed. Since exponents mean repeated factors, $(x^2)^3$ has 3 groups of 2 factors of x or 6 total factors.

$$(x^2)^3 = (x^2)(x^2)(x^2) = x^6$$

Notice that the final exponent is the product of the original two exponents. In general, to simplify a power raised to a power, multiply the exponents. For the previous example, $(x^2)^3 = x^6$.

Product Raised to a Power

A product may also be raised to a power as in $(xy)^3$. When the repeated factors are expanded, the result is that the x and y factors are both raised to the third power. In general, to simplify a product raised to a power, raise each factor to that power. For $(xy)^3$, the exponent of 3 gets "distributed" to each factor: $(xy)^3 = x^3y^3$.

Quotient Raised to a Power

A similar rule applies when a quotient is raised to a power, such as $(\frac{x}{y})^3$. The repeated factor is the entire fraction. Notice that the result of expanding and multiplying is that both the numerator and denominator are raised to the fourth power.

$$(\frac{x}{y})^3 = (\frac{x}{y})(\frac{x}{y})(\frac{x}{y}) = \frac{x^3}{y^3}$$

In general, to simplify a quotient raised to a power, raise both the numerator and denominator to that power. For the previous example, $(\frac{x}{y})^3 = \frac{x^3}{y^3}$.

Example LU 10.1

Simplify.

(a) $(x^2)^3$
= $x^2 \cdot x^2 \cdot x^2$
= x^6

(b) $(m^2n)^3$
= $(m^2n)(m^2n)(m^2n)$
= m^6n^3

3. $(x^2)^3 = x^6$
4. $(y^3)^2 = y^6$
5. $(x^2)^3 = x^6$
6. $(y^3)^2 = y^6$
7. $(x^2)^3 = x^6$
8. $(y^3)^2 = y^6$
9. $(x^2)^3 = x^6$
10. $(y^3)^2 = y^6$
11. $(x^2)^3 = x^6$
12. $(y^3)^2 = y^6$
13. $(x^2)^3 = x^6$
14. $(y^3)^2 = y^6$
15. $(x^2)^3 = x^6$
16. $(y^3)^2 = y^6$

Monomials

Monomials are algebraic expressions with only one term. The product of two monomials is a monomial. First, multiply the numerical coefficients. Then, multiply the variables like bases.

Example: $(-5x^2y)(3x^2y^3)$
= $(-5 \cdot 3)(x^2 \cdot x^2)(y \cdot y^3)$
= $-15x^4y^4$

The Equation of the Parabola

Each conic has various characteristics. One characteristic is a ratio of distances called *eccentricity* (e). A reference point called the *focus* and a line called the *directrix* are useful for determining eccentricity. Focus and directrix are shown in Figure 12D.

Table B
Eccentricity
distance to focus
distance to directrix

Conics also exhibit symmetry. Parabolas are symmetric to a line called the *axis of symmetry*. The point where the parabola crosses the axis of symmetry is called the *vertex*, the directrix is always perpendicular to the axis of symmetry, and the focus is always on the axis of symmetry. Chords through the focus are called *focal chords*. The focal chord perpendicular to the axis of symmetry is called the *latus rectum*. The endpoints of the latus rectum are easily found and are helpful in graphing the correct curvature of any conic. See Figure 12D for the location of these lines and points in a parabola.

A characteristic unique to all parabolas is that the eccentricity always equals one. This fact is used to develop the parabola equation. From the eccentricity equation, since $e = 1$, distance to focus and distance to directrix are equal. Mathematically, a parabola is the locus of points whose distance to the focus equals the distance to the directrix.

Select any point (x, y) on the parabola and draw a line, d_f , to the focus and another line, d_{dir} , perpendicular to the directrix (See Figure 12D). Since $e = 1$, $d_f = d_{dir}$. How sharply a parabola is curved around the focus depends on a parabola constant, p . This constant is the distance between the focus and the vertex. In Figure 12E, the coordinates of the focus, $(p, 0)$, the equation of the directrix, $x = -p$, and the point where the perpendicular from (x, y) meets the directrix, $(-p, y)$ are labeled. From the distance formulas, and since $d_f = d_{dir}$,

$$\begin{aligned} \text{distance to focus, } d_f &= \sqrt{(x_2 - x_1)^2 + (y_2 - y_1)^2} \\ d_f &= \sqrt{(x - p)^2 + (y - 0)^2} \\ d_{dir} &= \sqrt{(x - (-p))^2 + (y - y)^2} \\ d_{dir} &= d_{df} \\ \sqrt{(x - p)^2 + y^2} &= |x + p| \end{aligned}$$

$$y^2 = 4px$$

CHAPTER 30 2000–2020 America in the New Millennium

HIGHLIGHTS

- George W. Bush's Administration
- Barack Obama's Administration
- Donald Trump's Administration
- American Moral Decline
- Science and Culture in the New Millennium

When you open your heart to patriotism, there is no room for prejudice. The Bible tells us, "how good and pleasant it is when God's people live together in unity" [in reference to Psalm 133:1]. We must speak our minds openly, debate our disagreements honestly, but always pursue solidarity!"
—Donald Trump

The America of the new millennium hoped to fulfill the dreams of the old one. New technologies revolutionized society in the wake of the Internet and the micro-chip, and Americans envisioned a future where the 20th

century's racial tensions and threats of world war were relics. At the same time, America continued to throw off Christian morality and reliance on God, and the utopian vision of the future was marred by Islamic terrorism abroad and political tribalism at home. It remains to the Christians of the new millennium to keep the faith and turn 21st-century America back to the blessings of God.

World History and Cultures in Christian Perspective

115703 \$34.00

314455 \$19.95 Digital Textbook*

Confident that the hand of God has been active throughout history, World History and Cultures traces mankind's story starting from the Garden of Eden. A study of Greco-Roman culture paves the way for medieval history, while the last section brings students to the cusp of current history, depicting world events in light of God's will. While the focus is on western Judeo-Christian civilization, Asian and African cultures are also presented in a unique ancient-to-modern style. The history of ideas is emphasized rather than just political and economic events. Students receive a Christian perspective on topics such as language, chronology, "prehistoric times," art, music, evolutionism, socialism, Communism, humanism, liberalism, and more.

WORLD HISTORY AND CULTURES INCLUDES:

American Government provides for students the firm foundation needed to become informed, responsible citizens and voters in today's world. This text opens with an inspiring look at the blessings we enjoy and the symbols we hold dear as American citizens. This is followed by a detailed study of the Constitution, the government it established, and the rights and

privileges it guarantees the American people. After studying the Constitution and the national government, students learn about federalism and government at the state and local levels. The text concludes with a chapter on the opportunities and responsibilities of American citizens to get involved in their unique political system. It presents an American government as it was intended by its framers. Maintaining law and order while recognizing the freedom of citizens is emphasized as the proper role of government.

AMERICAN GOVERNMENT INCLUDES:

**Economics: Work and Prosperity****174653** \$28.60 (one semester)**314617** \$15.95 Digital Textbook*

Emphasis on free-enterprise capitalism in a free-market economy sets *Economics: Work and Prosperity* apart. Students are informed how to understand the economic roles of individual producers and consumers as well as that of the government. The stark contrast between the market economy—the cornerstone of prosperity in the United States—

and the command economy—the hallmark of fiscal failure in Communist countries—is graphically presented in illustration of the economic principles that govern all societies. *Economics: Work and Prosperity* is not just a text about buying and selling or supply and demand. Rather, the biblical view of work, wealth, and stewardship appears throughout the text, with essential concepts such as competition in the marketplace and private ownership of capital being presented from a conservative perspective.

ECONOMICS: WORK AND PROSPERITY INCLUDES:

- A variety of visual aids, including charts, photos, and illustrations that are presented in an attractive layout to aid in student learning and enjoyment.
- Highlighted key facts and concepts throughout the text.
- Review sections throughout the chapter and at chapter's end.
- Index of scripture references.
- Glossary of key concepts.

the study of the physical structure (*anatomy*) and function (*physiology*) of the human body (fig. 1.1).

As you become more familiar with organisms living near you, you will realize how important they are to nature and to you. The most obvious truths your study will reveal is that God used design in the creation of life and that all of nature fits together according to His plan.

For the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made, even his eternal power and Godhead; so that they are without excuse. —Rom. 1:20

Man's role in God's creation is explained in Genesis 1:28.

And God blessed them, and God said unto them, Be fruitful, and multiply, and replenish the earth, and subdue it: and have dominion over the fish of the sea, and over the fowl of the air, and over every living thing that moveth upon the earth.

God instructed man to have dominion over His creation.

Spiral-Learning Approach

Children are introduced to the concept of multiplication beginning in 1st grade. Basic facts are then introduced in 2nd grade, building to multi-digit multiplication problems and story problem application in 3rd grade. This knowledge will be further developed when taught to multiply fractions in 4th grade.

Grammar and Composition III

Grammar lessons are taught using the traditional explanation, example, exercise method. There is spiral review throughout the work-text, including before every test. Writer's Corners include step-by-step writing frameworks with examples and final compositions for reference. Rather than being told to write, students are shown how to write.

Literature

The Teacher Editions and Quiz and Test Book Keys should be part of any classroom where Abeka's literature textbooks are being used. They include answers to questions, composition suggestions, and unit reviews. For pacing, be sure to include the Curriculum Lesson Plans. CHAPTER 8 1789-1861

The Federalist Era

HIGHLIGHTS

- The New Government Is Born
- Hamilton's Financial Program
- The Election of 1796
- The Administration of John Adams

This Government, the offspring of our own choice... adopted upon full investigation and mature deliberation, completely free in its principles... and containing within it a provision for its own amendment, has a just claim to your confidence and your support.

—George Washington

Facing the future with confidence, many men of vision became a great nation in the shadow of its three early presidents of the new republic, able to create and determine its own destiny while also making sure to satisfy the United States of America to its promises.

The United States launched her new constitutional government over previous times. Creative people flourished and many strong leaders within early years' government had been formed. Although many people still felt inferior—many still had not a single person government had been formed, without any American had finally done this for the first time.

The New Government Is Launched

Washington's Inauguration
Early in 1793, George Washington journeyed from his home in Virginia to the **New York City**, the nation's temporary capital. Along the way, thousands

 Balanced History

While Germany and Japan are remembered for their war crimes, it is equally important to remember that both the Allies and the Central Powers committed atrocities during the war. Neither side was guiltless. Many times, the winning side's crimes are often overlooked, but it is important to balance the facts of what occurred during World War II.

D Major Scale

- The key signature is the code which unlocks the places where the fingers should go.
- The key signature is placed before the time signature and indicates which notes should be played as sharps throughout the piece.
- Because the sharps are in the key signature, there is no need to write them in throughout the piece.
- Major scales are made up of a pattern of half and whole steps.
- The key signature for the D major scale is two sharps—F# and C#.
- The half steps for the D major scale are between F# and G and between C# and D.

Kindergarten Graduation

Kindergarten graduation ceremonies are a great way to develop parental interest in your kindergarten and elementary programs. When family and friends see the academic accomplishments of your kindergartners and their advancement in social interaction, they are sold on your program and want their children to come back in first grade.

Kindergarten Graduation Programs

186856 \$11.80 Program A

192317 \$11.80 Program B

These guides to the kindergarten graduation program give director's notes, program scripts, and pointers for costuming, props, assigning parts, rehearsals, and staging. **Program A** features the students' achievements in academics, Bible, science, music, and poetry and the musical drama Goldilocks and the Three Bears. **Program B** features the students' achievements in academics, Bible, social studies, rhythm band, music, and poetry and the musical drama The Little Red Hen. To be used with the following materials: *Sing unto the Lord* (listed with K5 materials), *Song Time for K5* (listed with K5 materials).

Kindergarten Graduation Supplies

Program covers for your graduation exercises, invitations for parents and friends, and diplomas for the graduates are available in two appealing styles. Diplomas, program covers, and invitations with envelopes are each sold in packages of 25.

INSIDE INVITATIONS:

I'm so excited!

I've just got to tell all.

I've been going to Kindergarten since last fall.

I've learned so many things...

I hope you'll come and see.

I'll be Master of Kinder Arts when I get my degree.

PROTEACH SUPPLEMENTAL VIDEO

Affordable Video Instruction Recorded in Master Teachers' Classrooms

ProTeach gives you the flexibility to offer classes for K4–Grade 12, without having to hire a teacher for every subject and every classroom.

Because **ProTeach** videos are prerecorded in a Christian school classroom, your students will feel like part of the onscreen class. Our teachers acknowledge them and give them a chance to participate in assignments, activities, and games.

From schools that use video lessons for multiple grades and subjects to schools that need them for select grades or by the hour, **ProTeach** offers you cost-effective flexibility.

For sample video lessons, go to abeka.com/VideoSamples

ProTeach Streaming features

ProTeach streaming allows your students to learn from anywhere and still stay on track.

When you choose **ProTeach** streaming your faculty will be able to

Assign individual lessons

Group students by class or grade for easy organization

Monitor student progress

Save time by not needing to record lessons

This is a life saver! ProTeach has saved me so much time with not having to shoot my own videos. Thank you Abeka for all you have done to help teachers, parents, and students during this very different time."

TEACHING KNOWLEDGE. TRAINING MINDS. TOUCHING HEARTS.

BIBLICAL WORLDVIEW

In today's ever-changing culture filled with people who don't know why they believe what they believe, *you can bring up children who stand firm in faith.*

RESEARCH & DEVELOPMENT

Extensive research and development ensures products meet both biblical and academic standards so that your students are prepared for *wherever God calls them.*

PROVEN PHILOSOPHY

A proven philosophy *helps teachers teach and students learn.* Because you're not experimenting with something as important as education, you won't have to wonder if what you're doing will work.

CRITICAL THINKING

God has gifted us with the power to *think for ourselves*—by challenging your students to think critically from a biblical worldview, you'll be setting them up for success throughout life.

Ordering Information

(See p. 176 for additional information for all accounts outside the Contiguous United States)

TERMS AND CONDITIONS

- All orders are subject to approval by Abeka office in Pensacola, FL.
- Prices are subject to change without notice.
- Orders are shipped F.O.B. Pensacola at customer's risk. Special instructions should be clear.
- All materials purchased hereunder, including but not limited to teacher editions, Curriculum Lesson Plans, teacher keys, answer keys, solution keys, and student kits (as defined in the "Definitions" section on p. 176) shall be specifically subject to the terms and conditions of the User License Agreement.
- Sales Tax: Orders are charged current state sales tax plus the applicable local tax based on the shipping address. If exempt from sales tax, please send Abeka a copy of your resale or exemption certificate. Sales tax exemption certificates must be on file to receive sales tax refunds.
- School accounts may not lease, purchase, or place orders for homeschooling families, including umbrella groups operating under a school. Homeschoolers may purchase retail items directly from Abeka. Schools may not purchase items for other schools, bookstores, churches, etc. Schools may only purchase items for their own school.
- Curriculums are not available on public school organization accounts; however, these accounts may purchase other materials for homeschools and Christian schools within their own state.

SHIPPING

- Standard Service: Orders within the contiguous U.S. and Canada are shipped by standard service at no charge.
- Orders are processed for shipping when received.
- Shipments may arrive over a period of days. Inventory immediately. Abeka, Inc. is not responsible for missing items reported after 60 days of the invoice date.

PAYMENT

- We do not accept postdated checks.
- There is a charge of \$25 or 5% of the check value on all returned checks.
- Payment for your order is due upon invoicing. To avoid late charges, the payment of each invoice must reach the Abeka office no later than 30 days after invoice date.

DELINQUENT ACCOUNTS

- Accounts past due 30 days or more must be current before additional material can be sent. Delinquent accounts are subject to 1½% late charge per month (18% annual percentage rate).
- Payments on delinquent accounts will first apply to accrued late fees; the remainder will be applied to principal.

NEW ACCOUNT ORDERS

- New accounts are opened upon receipt of your order and a completed account application. You will be notified of your approved credit line within six working days of receipt of your completed form. Orders not accompanied by payment in full will be held for payment or approval of credit line sufficient to cover the order amount. If you need an account application, please call 1-877-223-5226.

PREVIEW ORDERS

- Orders (one copy per title) may be placed (not retail or international accounts) for a 60-day preview period from the date of the invoice. If a preview order is kept, the invoice must be paid no later than 30 days after the 60-day preview ends. Please mark if order is for preview.
- New accounts may order a total value of \$100 of textbooks and materials on preview. Cash for any amount over \$100 must accompany preview orders. Please Note: Grade level and/or subject curriculums, one Bible curriculum kit, one preschool or kindergarten curriculum kit, and one elementary curriculum kit may be ordered on preview with delayed payment upon approval of a completed account application or through a visit with your local Abeka representative. Call toll free 1-877-223-5226 to request a visit with your representative.
- To return preview orders, see return policy.

BACK ORDERS

- Back orders will be sent as soon as they become available.

COPYRIGHT NOTICE

- Abeka materials are protected by copyright law. No part of any publication may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopy, recording, or any information storage and retrieval system, or by license from any collective or licensing body without permission in writing from the publisher.

RETURN POLICY

- **Before returning any materials**, please visit abeka.com or call 1-877-223-5226 for Return Materials Authorization (RMA), so that proper credit can be issued to your account. The return address is 5418 Rawson Lane, Pensacola, FL 32503, U.S.A. The customer is responsible to pay all expenses incurred when returning merchandise to Abeka.
- Items marked as "As long as available" are nonreturnable. Nonreturnable merchandise returned to Abeka will be discarded.
- Full credit will be given on merchandise returned within 30 days of the invoice date. Materials returned between 30 and 60 days of the invoice date will receive a 10% restocking fee. Materials returned between 60 and 90 days of the invoice date will receive a 25% restocking fee. No credit will be issued for returns received 90 days after the invoice date. Materials returned must be in perfect, salable condition, NOT DAMAGED—unmarked, unstamped, with no signs of shelf wear. To receive credit for unbound books, return in original wrap.
- Abeka, Inc. cannot be responsible for any loss or damage incurred in return shipments. Shipments should be sent via UPS or motor freight.
- Allow four weeks for credit to be issued for returned merchandise.
- Preview orders in new condition may be returned within the examination period for full credit. Please call to request a prepaid return label to send merchandise back. If any items are kept out of the order, the customer will be responsible for the merchandise value of only those items.
