From the **PRESIDENT**

Troy A. Shoemaker, Ed.D.

Dear Educator,

We are honored to journey alongside you to impart biblical truths, academic integrity, and the knowledge of Christ to the next generation. Along the way, we value the feedback that you provide, enabling us to support your mission in the best and most important ways. That's why I am thrilled to make an exciting announcement.

echoexam™ brought to you by **abeka**

You told us that you need additional support in testing to ensure secure assessments that effectively validate learning objectives. We are pleased to introduce the EchoExam digital assessment platform. You are going to appreciate this easy-to-use online interface as you create, administer, and evaluate assessments. The platform is preloaded with Abeka quizzes and tests that are fully customizable to meet your students' needs. There are so many helpful features, but customization, printability, and reporting are the top three you will value right away. Abeka is thrilled to offer cutting-edge technology that better supports the learning environment!

We are driven by the heartfelt desire to witness generations of Christian leaders emerge from your classroom with the ability to think critically, understand deeply, and stand firm on biblical principles. Thank you for the privilege to walk beside you on this journey. We would love to hear how God is blessing your school and how Abeka can continue to be a strong partner.

Elementary Spanish A—brand new product line

Use Abeka's brand new Spanish product line to introduce your students to a new language! User-friendly instructional materials and appealing worksheets enable kindergartners to learn over one hundred Spanish words, along with Bible verses and songs, while enjoying themes of family, the farm, the zoo, the home, and others. *Spanish A* is designed for all students, even if they have no previous familiarity with the Spanish language, and the teacher materials will equip teachers who have varying proficiency in the language. While worksheets are designed for K5, these resources can be successfully used in additional grade levels.

I never imagined how much I would enjoy teaching Spanish! I am not fluent, so I have enjoyed learning alongside the children. Their excitement is truly contagious as we learn new Spanish words, Bible verses, and songs!

Grade 5

Reading 5

Students dive deeper into the world of literature! Abeka's new Reading 5 program will provide enjoyment of a variety of literature genres by diverse authors, both classic and contemporary; opportunities to increase practical and critical thinking and comprehension; and strengthening of analysis and evaluation skills, all through the lens of a biblical worldview.

For all the most up-to-date product-release info, visit abeka.com/New24.

Language 5

Language 5 continues a purposeful plan for building effective communication based on the foundation of a biblical worldview and the traditional rules of grammar and mechanics. Using the tools of daily lesson application, systematic review, and writing instruction, students will continue to develop strong communication skills.

Writing 5

Practice cursive penmanship while exploring wonders of creativity. Continue developing communication skills through the application of the writing process using graphic organizers and writing prompts to create and present informative essays, imaginative narratives, poetry, and more.

Spelling, Vocabulary, and Poetry 5

Students are introduced to the building blocks of words—prefixes, suffixes, and roots—in this logically organized spelling course. Age-appropriate themed vocabulary, as well as multiple exercises for each list, encourages critical thinking as students move from memorization to application of spelling concepts. Illustrated poems encourage appreciation for literature and art.

Arithmetic 5

Abeka's refreshed arithmetic materials provide more opportunities for students to develop their critical thinking and application skills. Well-paced, logical instruction takes students from the known to the unknown as they study percentages, simple geometry, basic algebraic equations, data, graphing, and more. Consistent spiral review keeps content fresh as students expand their knowledge.

History 5

Fifth grade History and Geography Studies introduces students to the Eastern Hemisphere. They will explore the history of mankind beginning in the Fertile Crescent and traveling throughout the continents of Asia, Europe, Africa, Australia, Antarctica, and the region of Oceania. Ancient history, as well as modern connections, gives students a broad overview of the peoples and cultures of the East. Geography studies introduce students to countries and capitals, major cities, waterways, landforms, and flora and fauna of the old world.

Science 5

Building on the foundation laid in the revised third and fourth grade science books, *Investigating God's World*, explores several areas of scientific study. Earth science takes students from the study of our solar system to the earth itself with its geology, weather, plants, and more. A biological study of life science, marine biology, and ecology hones in on the intricacies of our world and our responsibilities to care for what God has provided. A study of physical science including chemistry, energy, force, and motion introduces students to the detail and ingenuity God instilled in His creation. Built-in lab days and experiments provide hands-on learning opportunities and a love for studying our amazing planet.

New & Revised Products

English 10

Grammar

Instruction includes twelve units of easy-to-follow rules detailing mechanics, the parts of speech, and sentence structure. Focused exercises, such as diagramming, train students to analyze the function and importance of each word. The addition of the Glossary of Diction teaches appropriate use of expressions in formal writing.

Literature

Providing broader exposure to the global canon of literature, this series contains select works from over thirty countries and includes the novel *The Scarlet Pimpernel* and the play *Julius Caesar*. Eight poems within the literature book are suggested for memorization. Brimming with background information, reading strategies, illustrations, and discussion prompts, this literature text fosters critical thinking through a biblical worldview.

Composition, Vocabulary, and Spelling

This focused text is designed to advance students' writing and vocabulary abilities. Step-by-step guides and annotated examples of composition projects aid students in writing with structure, clarity, and individuality. Twenty spelling and vocabulary lists help students apply spelling rules and etymology while themed sections incorporate terms from the fields of history, fine arts, science, and business.

Chemistry

Teach essential chemistry concepts to your students with the revised Chemistry text. Your students will explore topics from chemical reactions to organic chemistry with an emphasis on critical thinking and application. In-depth explanations, examples, and practice throughout will thoroughly prepare students for assessments. Additionally, students will appreciate the notes, tips, critical thinking opportunities, writing prompts, and biblical worldview emphasis throughout the text. Feature boxes highlight real-world application and history of selected topics. The correlated materials include a two-volume Teacher Edition, Digital Teaching Slides, Quizzes/Tests book and Teacher Key, Laboratory Manual and Teacher Edition, and STEM Project Guide.

How We Develop A CURRICULUM You Can Depend On

Timely.

Thorough.

Trustworthy.

Reliable studies for traditional best practices—validated by the consistent success of millions of students over decades—form the basis of Abeka textbooks, curriculums, and other materials. When you teach with Abeka, your teaching is based on biblical principles that address the nature of the learner and learning itself, the nature of truth and authority, and what is truly important to learn and remember.

BIBLICAL WORLDVIEW

Teaching every subject through the lens of Scripture reinforces that our lives aren't split into the sacred and the secular everyday life. It gives students countless opportunities to come to Christ for salvation and to adopt biblical values of their own.

RESEARCH & DEVELOPMENT

Products meet both biblical standards and academic standards so that your students are prepared for whatever God calls them—from the mission field to the medical field.

PROVEN PHILOSOPHY

Your materials and methods start with the firmest foundation: what the Bible says about human nature, knowledge, authority, orderliness, and philosophy.

CRITICAL THINKING

Building from a foundation of facts, your students will learn how to apply those facts to solve problems, generate ideas, and discern truth.

Our process demonstrates academic integrity, content research, trial testing, and ongoing evaluation to provide the very best in Christian educational materials.

1 *Needs Assessment*

Creation based on current scholastic requirements and the needs assessment of Christian education.

2 *Research*

Careful research of educational standards and objectives along with academic trends and standardized testing data evaluated to determine selection and treatment of topics based on their overall fit into the preschool–12 scope and sequence with respect to sequential progression and age appropriateness.

3 *Writing & Illustrating*

Textbooks, teaching resources, and assessments actually written and edited by master teachers who have successfully taught in the field. Supporting media and illustrations also developed concurrently.

4 *Ongoing Development*

Editorial and research teams assist writers through ongoing development to corroborate, review, and polish content and technical changes for readability, style, and form.

5 *Initial Printing*

Layout and design finalized and approved for initial printing and piloting.

6 *Pilot*

Textbooks and materials are piloted at Pensacola Christian Academy. Continuous feedback from active teaching professionals is provided along the way.

7 *Revision*

Editorial team makes necessary revisions to ensure maximum readability, academic rigor, assessment validity, and student appeal.

8 *Publication*

Final editorial approval and release for publication.

Subject Distinctives

Bible

The foundation for all learning

The Abeka Bible program presents the Bible in the narrative style in which it is written. Students are led through the stories and truths of the Old and New Testaments, including Bible doctrine and application at an age-appropriate level. **It is our goal to help you reach children of all ages with the Gospel and to equip you as you guide them in developing a biblical worldview.**

Reading

The means by which each person may learn for himself

Because children often emulate what they read, they benefit from the development of reading skills through character-building reading materials from an early age. Abeka employs phonics as the most logical, orderly way to introduce reading to children. Abeka readers are beautifully illustrated and imaginatively written.

Selections are carefully chosen for interest, readability, theme, and values, with literary concepts and questions throughout to guide students in comprehension of reading material and in development of critical thinking skills, including life application of valuable principles.

History

A realistic view of time, government, geography, and economics based on eternal truths

Abeka's history courses present a thought-provoking portrayal of peoples, lands, ideals, heroes, triumphs, and setbacks in light of the biblical principles that govern the natural course of history. Students benefit from this traditional, conservative approach to the study of what man has done with the time God has given to him.

Along with the story of history, students see the purpose of government as ordained by God to maintain law and order, not as a cure-all for humanity's problems.

The benefits of free-enterprise economics are presented in contrast with the dangers of Communism, socialism, and liberalism. Geography studies are woven in to provide a well-rounded perspective of locations in conjunction with events. **This approach results in edifying history texts that give students a historical perspective and instills within them a gratitude for God's hand in history and a desire to influence the future by fulfilling the Great Commission (Matt. 28:19-20).**

Mathematics

The study of logic and order to apply to science and daily life

Abeka teaches that the laws of mathematics are a creation of God and thus absolute. Man's task is to search out and make use of the laws of the universe, both scientific and mathematical. This is in significant contrast to the modern math theories that are based on mathematics as a creation of man and are thus arbitrary and relative.

Students enjoy Abeka's variety in covering multiple branches of mathematics—arithmetic, geometry, algebra, etc.—each year on an age-appropriate level. At the same time, they benefit from the spiral approach of revisiting and building upon the learning throughout each year and from one year to the next. The learning is both relevant for today and foundational for the future, with each course purposefully preparing students for the next. **This solid foundation of mathematical concepts and problem-solving skills, enhanced with a biblical worldview, intentionally and naturally results in lifelong application.**

Science/Health

The investigation of variety, order, and reasonableness revealed in creation

The Abeka science and health program presents the universe as the direct, orderly, law-abiding creation of God and refutes the man-made idea of evolution. Students are presented with plants, animals, rocks, elements, forces, the human body—and much more—according to an understanding of the design and laws of nature.

Learning is delivered through age-appropriate content in a variety of scientific fields, including life science, chemistry, and physics. This content is supported by full-color illustrations to enhance learning, oral and written activities to reinforce learning, and hands-on demonstrations to personalize learning. **Students are equipped to explore science from a biblical worldview while developing practical use of the scientific method and application of critical thinking skills.**

English

The study of language and communication in a structured, reasonable, and well-articulated manner

Because thought and language form the foundation of learning and communication, teaching grammar, spelling, vocabulary, composition, and literature is vitally important. Abeka presents language in a structure in which students develop orderliness, reasoning, and logic.

Students will benefit from Abeka's commitment to an emphasis on reliable grammatical and literary structure that prepares them for analysis and practice. The desirable result is mastery with the development of critical thinking. Because of this emphasis, students see the importance of correct spelling and the continual expansion of one's vocabulary. **Students are provided with examples of the very best literature of the ages, opportunities for the continual improvement of speaking and writing ability based on a strong grammatical foundation, and the development of individual discernment based on a biblical worldview.**

LANGUAGE ARTS

Little Books 1–12

138401

These delightfully illustrated little books are excellent tools for introducing children to the reading circle. They start with very basic vowel sounds and go on to consonants, blends, words, and simple sentences. Each book is short enough for a child to complete in one or two sessions. The books also include activity pages for review and coloring.

Animal Friends Books 1–8

138428

Each full-color book features carefully selected, very simple one- and two-vowel words and stories that are sure to appeal to your beginning readers.

Mini Alphabet Flashcards 31 Cards (2¾" x 3½")

138533

Mini cards are just like the large ones teachers use! As the students learn the sounds of the letters, they take the mini cards home.

Teaching your students to read shouldn't be a struggle.

Enjoy introducing your four-year-olds to reading using the simple steps of Phonics. Beginning with learning sounds of vowels, then consonants, students quickly learn to join the sounds together to form words. Sounding out one-vowel words will delight your students as they are able to read simple stories on their own!

Lesson 1A

Let's Sing (5 min.)

"Dios Bueno es"
("God Is So Good")

Dios bueno es (D),
bueno es para mí.
Dios es tan bueno (D),
He's so good to me.

Children who speak Spanish sometimes sing the same song that you do, but in the Spanish language. Do you know the song "God Is So Good"? Today we are going to hear how Spanish-speaking children sing this song.

Children sing a song in Spanish. Teacher is encouraged to listen to the song in English and then listen to the song in Spanish several times to become familiar with it. It is important for students to hear sound and feel of Spanish, without necessarily trying to pronounce words on their own.

Sing song in English once. Have students join in if they know song.

Listen carefully to the song in Spanish to see if you can recognize one of the words in this song. Play audio/ sing together in Spanish. — *Answer: Dios*

Did any of you hear a word that we've already learned? Guide students to answer: *Dios*.

Do you remember Who Dios is? God!

Bible Words

There is another important word in this song. It is the word *bueno*. *Bueno* means "good." Listen to the song again to see if you hear this word. Play audio/ sing together in Spanish.

The use of Spanish songs from curriculum is encouraged during transitional from English to Spanish and when students are learning Spanish activity sheet. Consider playing Spanish song throughout the lesson and when it is practical to use it.

Play audio/sing again. Have students hum along to make sure they know the tune while listening to song in Spanish.

Play audio/sing. Have students sing along.

Listen carefully to each student's performance to determine if they are singing correctly.

Lesson 1A

Application/Activity Sheet (5 min.)

Circle the person you hear.

1. Look at how number 1. Listen carefully as I say one of our Spanish words. *Manzana*, meaning circle manzana.

2. Now look at how number 2. *Manzana*, meaning circle manzana.

3. Now look at how number 3. *Manzana*, meaning circle manzana.

4. Now look at how number 4. Listen to this sentence. Have you seen my family? Repeat sentence if needed.

Circle the family member your teacher says.

1. *Manzana* 2. *Manzana* 3. *Manzana* 4. *Manzana*

Dios es amor.
1 Juan 4:8

Review verse with students. As time allows, have students color heart.

Students may color in dots, at time allows.

Repeat students they will be using activity sheet form.

Wrap-Up (2 min.)

Quickly review vocab words using all VC.

Review Bible verse.

CRITICAL THINKING

In History, students learn about significant events of the past. Important scientific findings play an essential role in Science class. Through Current Event and Science News Article assignments in Abeka's all-new History and Science for fifth grade, students predict short- or long-term historical or scientific impact of in-the-moment events and discoveries, allowing students to connect the past to the present with a look to the future.

SCIENCE (Available August 2024)**REVISED Investigating God's World FIFTH EDITION**
412279

Investigating God's World leads students continually from the known to the unknown by teaching important science concepts within the context of things they can see and know. The aim is to help them really understand basic principles of science. The text presents the world as the creation of God and glorifies Him as its Sustainer and Upholder. It introduces great scientists and naturalists who believed in the biblical account of Creation, and where appropriate it refutes the materialist's faith in evolution. Students learn about plants, animals, matter, energy, light, minerals, and other topics. Review questions and a multitude of activities and demonstrations make this a thoroughly teachable text.

Teach mathematics with confidence using logically arranged texts that emphasize problem solving. Your students will build a solid foundation on simpler concepts that prepare them for the complex concepts they'll learn as they progress through each text. With the Grade 7-12 math series, you will instill in your students a sound, practical knowledge of mathematics that they'll be able to apply throughout their lives.

Intermediate Mathematics and Pre-Algebra

Each text moves step-by-step from basic concepts to the more difficult. Practical word problems throughout the text show students the benefits of learning math. Each lesson is followed by an assignment, which provides homework to review that day's lesson and material from previous lessons. The material is divided into teachable daily lessons. The bright, open appearance and clear, readable type encourage student interest.

FIRST EDITION

Intermediate Mathematics 294012

This work-text gives a strong review of all arithmetic concepts and skills in conjunction with instruction in other branches of mathematics including algebra (four units), plane and solid geometry, and probability and statistics, providing the foundation students need to enjoy success in future mathematics courses. Problem-solving strategies throughout the text help students develop

needed problem-solving skills. Practical applications are utilized such as adjusting recipes, finding discounts, and calculating area. "Fast Facts" are short, special features that appear throughout to promote student interest and learning. Charts, step-by-step processes, glossary, and index complete this comprehensive work-text.

CHAPTER 30 2000-2020 America in the New Millennium

HIGHLIGHTS

- George W. Bush's Administration
- Barack Obama's Administration
- Donald Trump's Administration
- American Moral Decline
- Science and Culture in the New Millennium

When you open your heart to patriotism, there is no room for prejudice. The Bible tells us, "how good and pleasant it is when God's people live together in unity" [in reference to Psalm 133:1]. We must speak our minds openly, debate our disagreements honestly, but always pursue solidarity.¹

—Donald Trump

The America of the new millennium hoped to fulfill the dreams of the old one. New technologies revolutionized society in the wake of the Internet and the micro-chip, and Americans envisioned a future where the 20th

century's racial tensions and threats of world war were relics. At the same time, America continued to throw off Christian morality and reliance on God; and the utopian vision of the future was marred by Islamic terrorism abroad and political infatuation at home. It remains to the Christians of the new millennium to keep the faith and turn 21st-century America back to the blessings of God.

Contributions of the Captains of Industry

Some 19th-century Americans who accumulated great wealth by controlling certain areas of industry brought manifold benefits to mankind. Through their oil and steel businesses respectively, John D. Rockefeller and Andrew Carnegie not only provided thousands of jobs but also stimulated other industries. In addition, each helped to create better, safer, and more enjoyable living conditions for mankind and used his accumulated wealth in philanthropic endeavors.

Financially successful businessmen in the Age of Industry gave large amounts of money to support various Christian endeavors. Many

of these entrepreneurs were church members. Among them was John D. Rockefeller, a Baptist Sunday school teacher who tried to conduct his financial affairs as a steward. J. P. Morgan, an Episcopalian, donated money to build churches, schools, and hospitals. Cyrus McCormick was a Presbyterian who gave large amounts of money to various ministries. Rockefeller and other wealthy businessmen contributed millions of dollars to help found colleges and universities. At their founding, most of these institutions accepted the Bible as the Word of God. In 1867, George Peabody (1795–1869), a wealthy

merchant and financier, declaring that his action was prompted by gratitude to God, contributed \$5 million for the establishment of the Peabody Education Fund to promote education in the South. David Drew, railroad investor and benefactor of Drew University, was a Methodist, as were the Swifts, who supported Christian endeavors out of the profits of their large meat-packing business. Philip Danforth Armour (1832–1901), founder of another large meatpacking firm, and railroad tycoons James J. Hill and the Vanderbilts contributed to church educational institutions.

Henry Clay Frick (1849–1919), a wealthy entrepreneur, donated millions to church organizations and educational institutions. Andrew Carnegie gave millions of dollars for the purchase of church organs. Though not all of these men were Christians, all realized the valuable influence of Christian institutions upon society.

profits with the stockholders for seven years. In April 1607, a fleet of three ships sailed into Chesapeake Bay. The colonists sailed up a river they named the James and established a settlement they called Jamestown. (Both the river and the settlement were named in honor of James I.) Jamestown became the first permanent English settlement in the New World.

Hard times. The site chosen for the settlement seemed easy to defend against native attack; but the Jamestown settlement had several problems: (1) the low-lying land was infested with malaria; (2) the river

ter, half of the settlers had died. Jamestown's biggest problem was the common-store system established by her charter. Under this communal system, each man was required to place the fruit of his labor in a common storehouse, and each was entitled to receive food and supplies from the storehouse according to his needs. In reality, the industrious workers were required to provide for the idle. With everyone benefiting from the common storehouse but few contributing to it, the food supply was quickly depleted. America's first experiment with a form of socialism failed miserably.

In 1608, Captain John Smith (c. 1573–1631) took charge of the colony and saved her from destruction. He established a policy based on the biblical principle that any who would not work should not eat (2 Thess. 3:10). As historian David Montgomery put it, "Those who tried to live without working soon found that they must also try that harder thing—to live without eating."

When an injury forced Captain Smith to return to England, Jamestown again teetered on the brink of failure. During the winter of 1609–1610, called the starving time, the hungry settlers were forced to eat dogs, horses, and even rats and mice. Although several hundred colonists had joined the colony since 1607, only sixty remained alive by the spring of 1610. With the coming of spring, the survivors prepared

This text opens with an inspiring look at the blessings we enjoy and the symbols we hold dear as American citizens. This is followed by a detailed study of the Constitution, the government it established, and the rights

and privileges it guarantees the American people. After studying the Constitution and the national government, students learn about federalism and government at the state and local levels. The text concludes with a chapter on the opportunities and responsibilities of American citizens to get involved in their unique political system. It presents an American government as it was intended by its framers. Maintaining law and order while recognizing the freedom of citizens is emphasized as the proper role of government. This text includes an emphasis on key facts and concepts, review sections throughout each chapter with additional review at the end of each chapter, and a variety of visual aids, including photos and illustrations.

Economics: Work and Prosperity

174653 (one semester)

314617 Digital Textbook*

Emphasis on free-enterprise capitalism in a free-market economy sets Economics: Work and Prosperity apart. Students are informed how to understand the economic roles of individual producers and consumers as well as that of the government. The stark contrast between the market economy—the cornerstone of prosperity in the United States—

and the command economy—the hallmark of fiscal failure in Communist countries—is graphically presented in illustration of the economic principles that govern all societies. Economics: Work and Prosperity is not just a text about buying and selling or supply and demand. Rather, the biblical view of work, wealth, and stewardship appears throughout the text, with essential concepts such as competition in the marketplace and private ownership of capital being presented from a conservative perspective. This text includes an emphasis on key facts and concepts, review sections throughout each chapter with additional review at the end of each chapter, and a variety of visual aids, including photos and illustrations.

321419 Supplement with Personal Financial Literacy

This supplement expands on the textbook content with additional topics related to free-enterprise capitalism and personal financial literacy. Additional thinking and discussion questions are included.

SCIENCE & HEALTH | Student

Prepare your students for advanced education in many areas of science as you present God's order, provision, and reasonableness in His physical creation and refute the manmade idea of evolution. You'll share the compatibility of faith and science as you teach the basic principles of science in each grade and review and build upon them from year to year. Features such as bold terms, diagrams, charts, activities, and practical demonstrations and labs encourage mastery of concepts, while in-text study aids stimulate higher-level thinking in your students.

"The purpose of science is carefully observing nature, discovering the laws of creation, and using those laws for mankind's benefit."

What better scientific foundation than the Creator Himself!

7.1 Designed for Flight

Birds, in class Aves, are some of God's most fascinating creatures. Their magnificent **plumage** [plūō' mij; feathers], their melodious songs, and their ability to fly reveal God's endless creativity and marvelous provision. God cares greatly for the birds, but He holds an even greater love for you.

Behold the fowls of the air: for they sow not, neither do they reap, nor gather into barns; yet your heavenly Father feedeth them. Are ye not much better than they?

The organization of this chemistry text ensures mastery of the basic principles. An appealing layout with abundant photographs, illustrations, and diagrams makes chemical principles and applications clear and understandable. Computer-generated molecular models allow students to more easily visualize chemical processes. Increased emphasis on the basics of

chemistry and foundational math topics gives students a firm foundation on which to build more advanced knowledge. Practical applications of chemistry are given throughout, highlighting the importance of chemistry in everyday life. A Christian perspective helps students see chemistry as a beneficial science that can be used for man's benefit and God's glory. Environmental issues such as ozone depletion, global warming, and nuclear power are presented from a balanced, conservative perspective. Numerous in-text learning aids are provided, including worked examples, section reviews, and chapter reviews.

Making physics understandable is the distinguishing feature of *Physics: The Foundational Science*. Thorough and detailed explanations, with a touch of humor, penetrate the most perplexing questions. The principles of physics are illustrated by everyday experience and practical devices. The student is shown many kinds of technology, from the camera to

the car. Numerous illustrative problems are solved in detail. This text can play an important role in showing students the harmony between scientific knowledge and Christian belief. It is firmly grounded on the view that we live in a God-created world governed by laws discoverable by reverent scientific inquiry. Issues of vital concern to Christians are handled in depth. Interspersed throughout the text are biographies of great physicists who were also Bible-believing Christians. Sections included present fun and practical applications like antimatter, automobile suspension, red- and blueshift, cloaking/invisibility, and maglev trains.

AESOP'S FABLES
AESOP

Building Understanding

INTRODUCTION
In these famous fables, Aesop shares bits of wisdom regarding important aspects of life.

THEMES
Kindness • trust • loyalty

SIGNIFICANT STRUCTURES
A couple of the fables presented here are **beast fables**, fables featuring animals that speak, reason, and behave as humans do. These fables use animal characters to give commentary on human behavior.

READING STRATEGY

- Consider what each story is teaching and restate the moral in your own words.
- Identify the different characters in each fable and the specific characters they embody.

The Lion and the Mouse *theme of kindness*

A Lion was awakened from sleep by a Mouse running over his face. Rising up in anger, he caught him and was about to kill him when the Mouse piteously entreated, saying: "If you would only spare my life, I would be sure to repay your kindness." The Lion laughed and let him go. It happened shortly after this that the Lion was caught by some hunters, who bound him by strong ropes to the ground. The Mouse, recognizing his rap, came up and gnawed the ropes with his teeth and, setting him free, exclaimed: "You ridiculed the idea of my ever being able to help you, not expecting to receive from me any repayment of your favour; but now you know that it is possible for even a Mouse to confer benefits on a Lion."

Tip
The Lion and the Mouse
Like the lion, it may be easy to look at the deficiencies of others or of ourselves and wonder how we could make a difference for eternity. However, 1 Cor. 1:27 says, "God hath chosen the weak things of the world to confound the things which are mighty." God can use us as long as we are willing to trust and obey Him.

Discussion
What is the moral of "The Lion and the Mouse"? How could this be applied in your own life, keeping in mind Scriptural truth? Kindness is often repaid in unexpected ways. As Christians, we should never offer kindness expecting something in return, but rather trust that God will reward it someday, knowing that we reap what we sow (Gal. 6:7–9). Whether or not we receive a reward here on earth, we will one day in heaven (1 Cor. 3:10–15). Also, we should not dismiss the potential of others based on appearances. We can value others by getting to know them instead of making superficial assumptions about them.

Biblical Worldview questions and answers to train students to analyze texts from a biblical perspective

BIBLICAL WORLDVIEW
Can you think of instances in the Bible in which similar warnings are given? Why is it practical and necessary to heed such warnings?

Biblical Worldview
Answers may vary. The Bible encourages us to be wise as serpents and innocent as doves. It is important to use discernment in trusting others because there are those who will flatter with their words while their heart's intent is to cause harm.

The Goatherd and the Wild Goats *theme of loyalty*

A Goatherd, driving his flock from their pasture at eventide, found some wild goats mingled among them and shut them up together with his own for the night. On the morning, it snowed very hard, so that he could not take the herd to their usual feeding-places, but was obliged to keep them in the fold. He gave his own goats just sufficient food to keep them alive but fed the strangers more abundantly in the hope of enticing them to stay with him and of making them his own. When the thaw set in, he led them all out to feed, and the wild goats scampered away as fast as they could to the mountains. The Goatherd taxed them with their ingratitude in leaving him when during the storm, he had taken more care of them than of his own herd. One of them turning about said to him, "That is the very reason why we are so cautious; for if you yesterday treated us better than the Goats you have had so long, it is plain also that if others came after us, you would, in the same manner, prefer them to ourselves."

The Bear and the Two Travellers *theme of loyalty*

Two men were travelling together, when a Bear suddenly met them on their path. One of them climbed up quickly into a tree and concealed himself in the branches. The other, seeing that he must be attacked, fell flat on the ground, and when the Bear came up and felt him with his snout, and smelt him all over, he held his breath and feigned the appearance of death as much as he could. The Bear soon left him, for it is said he will not touch a dead body. When he was quite gone, the other traveller descended from the tree, and, according to his friend, jocularly inquired what it was the Bear had whispered in his ear. He replied, "He gave me this advice: 'Never travel with a friend who deserts you at the approach of danger.'"

THOUGHT PROVOKER
Did the bear really whisper to the second traveller? Why do you think the first traveller asked what the bear said? Why did the second traveller go along with the first traveller's question?

Teacher Note
Remind students of the difference between a moral and a theme. Use the diagram below to help students compare and contrast the moral and the theme.

| MORAL | THEME |
|--|--|
| <ul style="list-style-type: none"> Lesson or takeaway—often practical Normally advice or a warning Provides a clear principle for application in the reader's own life Is the author's own commentary on a topic | <ul style="list-style-type: none"> Main idea of a work—recurring throughout the story Normally a general idea such as love or justice Provides a main idea of the work but not clear instruction for personal application Is an idea that the author may provide commentary on |

Thought Provoker
No. The first traveler asked the question to make light of the situation, and the second traveler answered him to emphasize the fact that the situation was not a laughing matter.

LOOK INSIDE

Critical Thinking

Students are given opportunities to solve word problems by using an applicable problem solving strategy. Each word problem is unique and models mathematics in the real world.

Finding the Slope of a Line

The slope of a line is found by comparing any two points on the line. The vertical movement between the points (up or down) is a change in y -values called the *rise*. The horizontal movement between the points (left or right) is a change in x -values called the *run*. Slope (m) is the ratio of the rise to the run: $m = \frac{\text{rise}}{\text{run}}$.

The slope of the line on the right can be found using the points $(2, -1)$ and $(4, 3)$. Moving from the point $(2, -1)$ to $(4, 3)$ requires going up 4 units and right 2 units. Therefore, the slope is $m = \frac{\text{rise}}{\text{run}} = \frac{4}{2} = 2$ or just 2. Using the symbol Δ to represent "change" and subscripts to represent individual points, the equation for slope can be written as $m = \frac{\Delta y}{\Delta x} = \frac{y_2 - y_1}{x_2 - x_1}$. The expression $y_2 - y_1$ is read as "y-two minus y-one" and means to subtract the first y -value from the second. This equation allows the slope of a line to be determined from ordered pairs without having to look at the graph. For the points $(2, -1)$ and $(4, 3)$, the slope is $m = \frac{3 - (-1)}{4 - 2} = \frac{4}{2} = 2$.

Slope Subscripts

If the equation were written as $\frac{y_2 - y_1}{x_2 - x_1}$, would it produce the same slope? Why or why not? How about $\frac{y_1 - y_2}{x_1 - x_2}$?

3.3 Slope of a Line

Find the slope of each line passing through the given points.

11. $(3, 2)$ and $(1, -1)$ 12. $(-3, -5)$ and $(-2, 2)$

13. $(-9, 6)$ and $(-5, 3)$ 14. $(4, -6)$ and $(-2, 5)$

Graph a line through the origin $(0, 0)$ with the given slope.

15. $m = 2$ 16. $m = \frac{2}{3}$ 17. $m = -2$

Graph a line through the given point with the given slope.

18. $(4, 3)$ and $m = -\frac{4}{3}$ 19. $(-1, -3)$ and $m = \frac{1}{3}$

Zero & Undefined Slope

Using two points from each line, explain why the slope of a horizontal line is zero and the slope of a vertical line is undefined.

20. $(5, -3)$ and undefined slope

Review

Follow the directions.

21. Explain why (a) $2x + 8y = 16$ and (b) $-x + y = 12$ are not in standard form.

22. Graph (a) $5x + y = 10$ and (b) $-3x + 4y = 9$ by finding intercepts.

23. Write and solve an equation to find what numbers are a distance of 6 from the number -1 .

24. Mr. McNeese invested \$5,250 in two investments. He gained 7% on the first but lost 3% on the second. If he earned a total of \$250, write and solve an equation to find the amount of each investment.

PROTEACH SUPPLEMENTAL VIDEO

Affordable Video Instruction Recorded in Master Teachers' Classrooms

ProTeach gives you the flexibility to offer classes for K4–Grade 12, without having to hire a teacher for every subject and every classroom.

Because **ProTeach** videos are prerecorded in a Christian school classroom, your students will feel like part of the onscreen class. Our teachers

acknowledge them and give them a chance to participate in assignments, activities, and games.

From schools that use video lessons for multiple grades and subjects to schools that need them for select grades or by the hour, **ProTeach** offers you cost-effective flexibility.

For sample video lessons, go to abeka.com/VideoSamples

ProTeach Streaming features

ProTeach streaming allows your students to learn from anywhere and still stay on track.

When you choose **ProTeach** streaming your faculty will be able to

Assign individual lessons

Monitor student progress

Group students by class or grade for easy organization

Save time by not needing to record lessons

ASSESSMENTS

Evaluate your school's scholastic excellence and measure your students' academic development with our assessment solutions. Our mission is to provide superior customer service that conveniently helps educators throughout the testing process, including helping to interpret test results.

Paper Quizzes & Tests

How well are your students mastering course content? Well-written quizzes, tests, and exams give you a formal way to assess learning.

Choosing to use Abeka paper assessments gives you quality assurance in test design and content while saving you the time you would invest creating your own.

All quizzes and tests are included in Student Kits for grades 1–6, and they're also available separately. For product information, see the student section of the catalog.

Of course, keys are available, too. Keys come with the Teacher Kits and with Total Teaching Packages, and they're also available separately. For product information, see the teacher section of the catalog.

TEACHING KNOWLEDGE. TRAINING MINDS. TOUCHING HEARTS.

BIBLICAL WORLDVIEW

In today's ever-changing culture filled with people who don't know why they believe what they believe, *you can bring up children who stand firm in faith.*

RESEARCH & DEVELOPMENT

Extensive research and development ensures products meet both biblical and academic standards so that your students are prepared *for wherever God calls them.*

PROVEN PHILOSOPHY

A proven philosophy *helps teachers teach and students learn.* Because you're not experimenting with something as important as education, you won't have to wonder if what you're doing will work.

CRITICAL THINKING

God has gifted us with the power to *think for ourselves*—by challenging your students to think critically from a biblical worldview, you'll be setting them up for success throughout life.

Ordering Information

(See p. 176 for additional information for all accounts outside the Contiguous United States)

TERMS AND CONDITIONS

- All orders are subject to approval by Abeka office in Pensacola, FL.
- Prices are subject to change without notice.
- Orders are shipped F.O.B. Pensacola at customer's risk. Special instructions should be clear.
- All materials purchased hereunder, including but not limited to teacher editions, Curriculum Lesson Plans, teacher keys, answer keys, solution keys, and student kits (as defined in the "Definitions" section on p. 176) shall be specifically subject to the terms and conditions of the User License Agreement.
- Sales Tax: Orders are charged current state sales tax plus the applicable local tax based on the shipping address. If exempt from sales tax, please send Abeka a copy of your resale or exemption certificate. Sales tax exemption certificates must be on file to receive sales tax refunds.
- School accounts may not lease, purchase, or place orders for homeschooling families, including umbrella groups operating under a school. Homeschoolers may purchase retail items directly from Abeka. Schools may not purchase items for other schools, bookstores, churches, etc. Schools may only purchase items for their own school.
- Curriculums are not available on public school organization accounts; however, these accounts may purchase other materials for homeschools and Christian schools within their own state.

SHIPPING

- Standard Service: Orders within the contiguous U.S. and Canada are shipped by standard service at no charge.
- Orders are processed for shipping when received.
- Shipments may arrive over a period of days. Inventory immediately. Abeka, Inc. is not responsible for missing items reported after 60 days of the invoice date.

PAYMENT

- We do not accept postdated checks.
- There is a charge of \$25 or 5% of the check value on all returned checks.
- Payment for your order is due upon invoicing. To avoid late charges, the payment of each invoice must reach the Abeka office no later than 30 days after invoice date.

DELINQUENT ACCOUNTS

- Accounts past due 30 days or more must be current before additional material can be sent. Delinquent accounts are subject to 1½% late charge per month (18% annual percentage rate).
- Payments on delinquent accounts will first apply to accrued late fees; the remainder will be applied to principal.

NEW ACCOUNT ORDERS

- New accounts are opened upon receipt of your order and a completed account application. You will be notified of your approved credit line within six working days of receipt of your completed form. Orders not accompanied by payment in full will be held for payment or approval of credit line sufficient to cover the order amount. If you need an account application, please call 1-877-223-5226.

PREVIEW ORDERS

- Orders (one copy per title) may be placed (not retail or international accounts) for a 60-day preview period from the date of the invoice. If a preview order is kept, the invoice must be paid no later than 30 days after the 60-day preview ends. Please mark if order is for preview.
- New accounts may order a total value of \$100 of textbooks and materials on preview. Cash for any amount over \$100 must accompany preview orders. Please Note: Grade level and/or subject curriculums, one Bible curriculum kit, one preschool or kindergarten curriculum kit, and one elementary curriculum kit may be ordered on preview with delayed payment upon approval of a completed account application or through a visit with your local Abeka representative. Call toll free 1-877-223-5226 to request a visit with your representative.
- To return preview orders, see return policy.

BACK ORDERS

- Back orders will be sent as soon as they become available.

COPYRIGHT NOTICE

- Abeka materials are protected by copyright law. No part of any publication may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopy, recording, or any information storage and retrieval system, or by license from any collective or licensing body without permission in writing from the publisher.

RETURN POLICY

- **Before returning any materials**, please visit abeka.com or call 1-877-223-5226 for Return Materials Authorization (RMA), so that proper credit can be issued to your account. The return address is 5418 Rawson Lane, Pensacola, FL 32503, U.S.A. The customer is responsible to pay all expenses incurred when returning merchandise to Abeka.
- Items marked as "As long as available" are nonreturnable. Nonreturnable merchandise returned to Abeka will be discarded.
- Full credit will be given on merchandise returned within 30 days of the invoice date. Materials returned between 30 and 60 days of the invoice date will receive a 10% restocking fee. Materials returned between 60 and 90 days of the invoice date will receive a 25% restocking fee. No credit will be issued for returns received 90 days after the invoice date. Materials returned must be in perfect, salable condition, NOT DAMAGED—unmarked, unstamped, with no signs of shelf wear. To receive credit for unbound books, return in original wrap.
- Abeka, Inc. cannot be responsible for any loss or damage incurred in return shipments. Shipments should be sent via UPS or motor freight.
- Allow four weeks for credit to be issued for returned merchandise.
- Preview orders in new condition may be returned within the examination period for full credit. Please call to request a prepaid return label to send merchandise back. If any items are kept out of the order, the customer will be responsible for the merchandise value of only those items.
